

You are invited to

Ofgem's information event for OFTO Tender Round 6

Ofgem is holding an information event in advance of commencing OFTO Tender Round 6 (TR6). Building on the success of previous rounds, TR6 will tender the following three transmission assets:

- Beatrice wind farm (approximately 588MW), located 13km off of the Caithness coast;
- Hornsea 1 wind farm (approximately 1,218MW), located approximately 120km from the Yorkshire /Lincolnshire coast; and
- East Anglia ONE wind farm (approximately 714MW) located approximately 43km from the East Anglia /Suffolk coast.

Together, we expect the OFTO assets in TR6 to be worth in excess of £2 billion.

Tender documents are currently expected to be available in the last week of October 2018.

We will also provide interested parties with an update of our OFTO tender process policy consultation for future tender rounds (8th March 2018).

Confirming your attendance:

If you or a nominated representative from your organisation would like to attend the launch event, please use the following [link](#) to register **Wednesday 3rd October 2018**.

Please note that spaces are limited and depending on interest we may need to restrict attendance to 2-3 representatives per organisation, as well as on a first come, first served, basis. The event's exact timings and a detailed agenda will be circulated closer to the event.

Bilateral Meetings

If interested parties wish to meet with Ofgem and their advisers directly to discuss TR6, please send your request and your preferred dates and times to offshorelicensing@ofgem.gov.uk and we will try to arrange up an appropriate time.

Kind regards,

Cathryn Scott
Director, Systems & Networks
