*The data for micro-CHP corresponds to the tariff period 01 October 2018-31 March 2019
Please be aware that the above table is a snapshot of deployment and does not consist of realtime data. The information for each tariff period is verified once the tariff period has ended, which means these figures may change when the quarterly report is published.

## TP4 2018 Deplyment Chart

The 'TP4 2018 Deployment' chart shows which caps have been filled in this quarter (red) and those that are still open (blue).

## Queued Capacity

For those tariffs that have reached their TP4 capacity allocation, applications being received queue to enter the scheme in future tariff periods. This chart shows the queue for forthcoming tariff periods. Where the bar is full, there is currently no remaining capacity.
