

To the Company Secretary:

SP Transmission plc
Company Number: SC189126

DIRECTIONS ISSUED BY THE GAS AND ELECTRICITY MARKETS AUTHORITY TO SP TRANSMISSION PLC UNDER THE SPECIAL CONDITIONS OF ITS ELECTRICITY TRANSMISSION LICENCE IN RESPECT OF THE ANNUAL ITERATION PROCESS FOR THE RIIO-ET1 PRICE CONTROL FINANCIAL MODEL

WHEREAS

1. SP Transmission plc ('the licensee') is the holder of an electricity transmission licence ('the licence') granted or treated as granted under section 6(1)(b) of the Electricity Act 1989 ('the Act').
2. For the purposes of these directions:
 - (a) the expression 'Relevant Year t' has the same meaning as in Special Condition 1A (Definitions and Interpretation) of the licence, and references to Relevant Year t-1 are to be construed accordingly; and
 - (b) Relevant Year t is the Relevant Year that commences on 1 April 2019 and ends on 31 March 2020 ('Relevant Year 2019/20').
3. Special Condition 5B (Annual Iteration Process for the ET1 Price Control Financial Model) requires the Gas and Electricity Markets Authority to:
 - (a) carry out the Annual Iteration Process for the ET1 Price Control Financial Model (as each of those terms is defined in Special Condition 1A); and
 - (b) direct the value of the term MOD for Relevant Year t, for the purposes of the formulae that are specified in Special Condition 3A (Restriction of Transmission Network Revenue);
by 30 November in Relevant Year t-1.
4. The following Special Conditions provide for the Authority to direct revised PCFM Variable Values (as defined in Special Condition 1A) for the licensee for the purpose of the Annual Iteration Process for the ET1 Price Control Financial Model that forms part of Special Condition 5A of the licence:
 - (a) Special Condition 6A (Legacy price control adjustments – Transmission Owner) in respect of LAR (and its component term values IAR, TAR, CAR, and SAR) and LRAV (and its component term values IRAV, CRAV and SRAV);
 - (b) Special Condition 6C (Determination of PCFM Variable Values for Totex Incentive Mechanism Adjustments – Transmission Owner) in respect of ALC, ARC, AOC, ACO and ANC values;
 - (c) Special Condition 6D (Specified financial adjustments – Transmission Owner) in respect of EDE, APFE, TTE, TGIE and CDE values;
 - (d) Special Condition 6E (The Innovation Roll-out Mechanism) in respect of IRM values;
 - (e) Special Condition 6F (Baseline Generation Connections Outputs and Generation Connections volume driver) in respect of GCE values;
 - (f) Special Condition 6G (Mitigating the impact of Pre-existing Transmission Infrastructure on the visual amenity of Designated Areas) in respect of EPIE values;
 - (g) Special Condition 6H (Arrangements for the recovery of uncertain costs) in respect of IAEWR, IAEEPS and IAENLUM values; and
 - (h) Special Condition 6I (Specification of Baseline Wider Works Outputs and Strategic Wider Works Outputs and Assessment of Allowed Expenditure) in respect of WWE values.
5. Each of the Special Conditions referred to in paragraph 4:
 - (a) sets out the basis on which any revisions to relevant PCFM Variable Values are to be determined; and
 - (b) where applicable, specifies the price control financial methodology in accordance with which revisions to the relevant PCFM Variable Value(s) are to be determined and the chapter of the ET1 Price Control Financial Handbook containing that methodology.
6. The reason for these directions is to revise PCFM Variable Values as used in the Annual Iteration Process for the ET1 Price Control Financial Model. The Annual Iteration Process is used to calculate values for the term MOD that is used in the formulae set out in Special Condition 3A (Restriction of Transmission Network Revenue).
7. In accordance with the requirements set out in the Special Conditions referred to in paragraph 4, on 14 November 2018, the Authority gave notice of the revised PCFM Variable Values that it proposed to direct by 30 November in Relevant Year t-1 and specified that any representations concerning the proposed values should be made within fourteen days of receiving the notice.
8. The Authority received no representations.

NOW the Authority pursuant to the provisions of the Special Conditions referred to in paragraphs 3 and 4, **HEREBY DIRECTS** that:

- the PCFM Variable Values and component term values referred to in paragraph 4 are to be revised as shown in Schedule 1 to these directions; and
- the term MOD for the licensee for Relevant Year 2019/20 is to take the value -£1.8m.

Schedule 2 to these directions shows the complete PCFM Variable Values Table (as that term is defined in Special Condition 1A) including the values revised under these directions (in bold font) and the values that have not been revised under these directions.

This constitutes notice for the reasons for the Authority's decision pursuant to section 49A of the Act.

Geoffrey Randall

Deputy Director, Network Price Controls

Duly authorised on behalf of the Gas and Electricity Markets Authority
30 November 2018
