

Electricity Network Innovation Competition Full Submission
Supplementary Answer Form

Project: Charge: Refuelling Tomorrow's Electrified Transport

Tick if this answer has been provided verbally: ☐

Project code	SPMV1	Question Number	35		
Question date	30/08/18	Answer date	03/09/18		
Submission section question relates to		N/A			
Topic	Partners/external funding				
Question	Please provide information explaining how you have ensured that the level of funding requested against each of the Project Deliverables is appropriate.				
Notes on question					
Answer	<p>SP Energy Networks is recognised as one of the most innovative network companies, successfully delivering many innovation projects over the past several years. This level of understanding has enabled SPEN and project partners to develop the bid to ensure project deliverables are achievable, and deliverable in line with the cost outlined. We have employed a bottom up and top down methodology to ensure that costs are robust, minimising duplication where possible and providing a greater level of certainty.</p> <p>In line with the development of the modelling and the trials, the project has been broken down into separate and distinct work packages, providing SPEN the opportunity to query the costs based on the number of days and day rates.</p>
