Submission section question relates to		N/A	
Topic	Partners/external funding		
Question	Please provide additional information explaining how you decided the proposed level of evidence proposed for each project deliverable is appropriate. For example, for some deliverables you could have proposed commissioning documentation as part of the evidence.		
Notes on question			
Answer	<p>The deliverables as outlined in section 9 have been refined throughout the development of the bid and influenced by the experience of all project partners when delivering large innovative projects, i.e. a description of the activity / trials carried out; key learning: what worked, what didn't work, what we would do differently; and key outcomes for implementation. The level of evidence outlined has been deemed proportionate to the deliverables and is consistent with past LCNF and NIC funded projects.</p> <p>We would however be happy to have further discussion to either reasonably amend the evidence or to provide greater clarity if requested..</p>
