9. General feedback – please provide any further feedback on the DNO's 2018/19 engagement performance not covered in your responses above.	<p>From a very, very low base in 2017 (when I fed back to Ofgem that I was very unsatisfied with SPEN's day-to-day engagement), things have improved significantly. There are a number of individuals within SPEN who 'get' customer service and see customers as very important to the wider business and to their individual roles. That said, changing SPEN's historical culture, in this regard, into that of a WPD (for example) cannot happen overnight. As long as those who do value customers, customer service and customer engagement (at all levels of the business) are supported by senior management and are not spread too thinly (the brilliant Rachel Shorney, for example, of whom SPEN could do with a dozen), then the pockets of old-school "computer says no" attitude and obfuscation (which do still exist, sadly) will be systematically eliminated and I will be very satisfied.</p>
