

Repex working group 4

Ofgem Office, Glasgow

21st Feb 2019

Callum Mayfield
21/02/19

1. Feedback on the consultation document (ConDoc)
 - I. General feedback
 - II. Comments on whether there are areas of uncertainty or that lack clarity
 - III. Thoughts on what you like/dislike
2. Uncertainty mechanisms
 - I. Feedback on mechanisms proposed in the ConDoc
 - II. Comments on whether there are other mechanisms we should consider
3. BPDTs
 - I. Do we need to collect additional data for repex?
 - II. Areas we could make changes/updates
4. Next steps
 - I. Key dates and timelines
 - II. Future use of WGs
 - III. AOB

Do you have any specific questions on the proposals set out in the ConDoc?

Are there any areas in which you'd like further clarification?

What is your initial view of things you like in the document?

What is your initial view of things you don't like in the document?

Do you consider there to be anything missing from the December consultation relating to repex?

Do you have any specific questions on the proposals set out in the ConDoc?

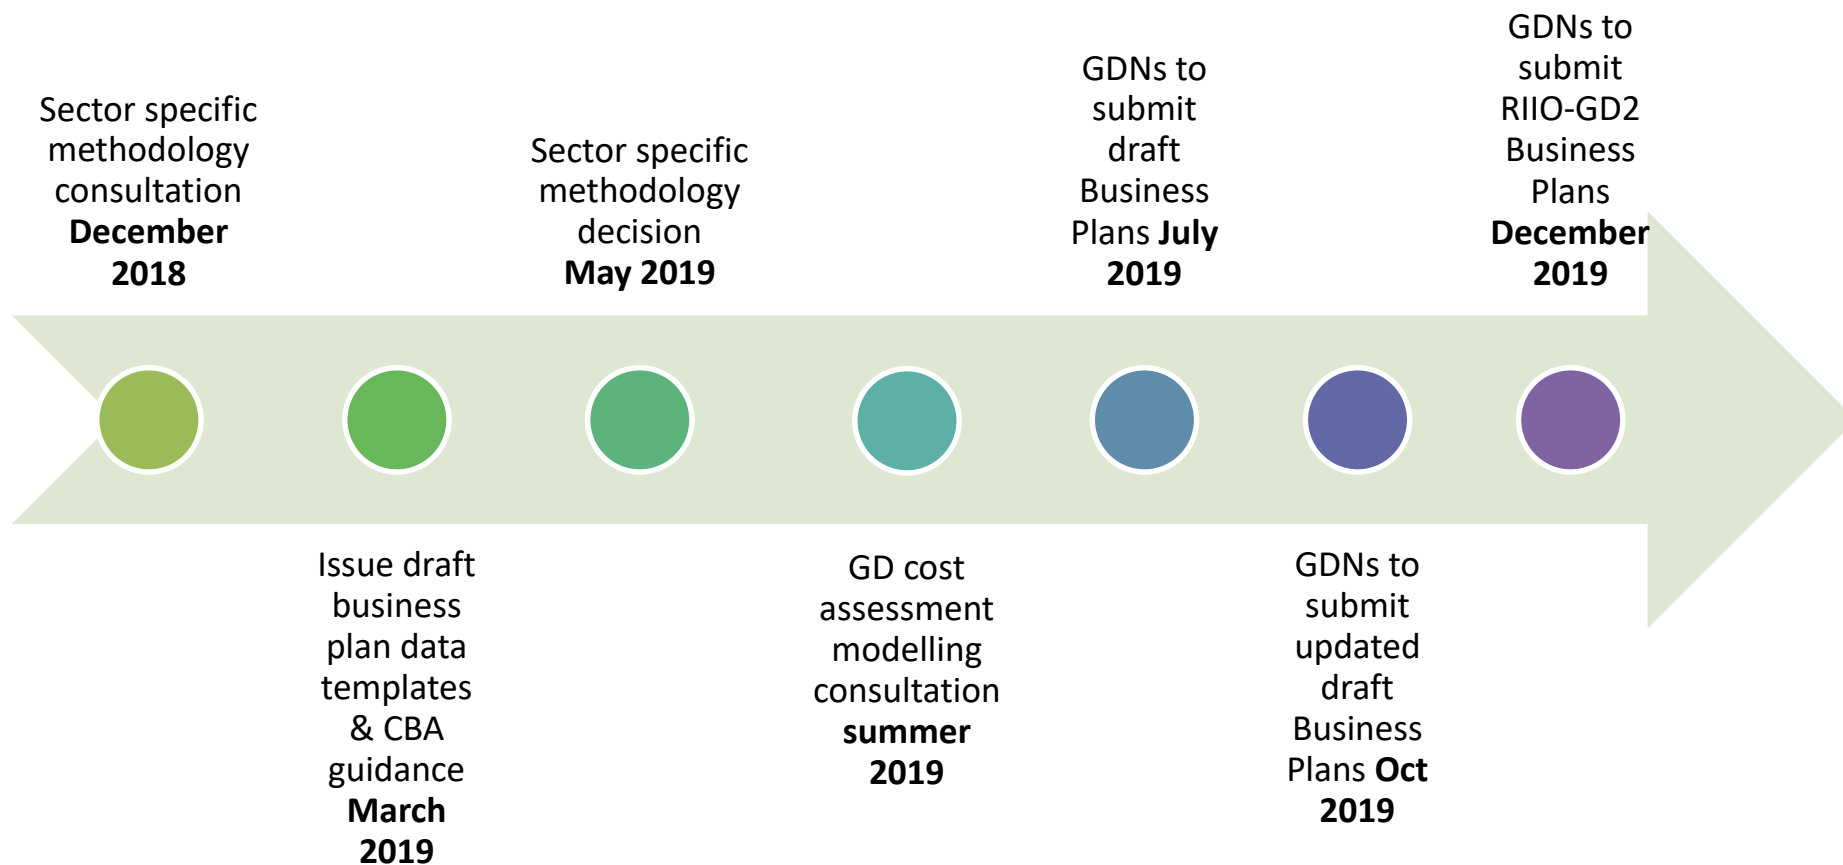

Are there any areas in which you'd like further clarification?

What is your initial view of things you like or dislike in the document?

Do you consider there to be anything missing from the December consultation relating to repex?

Are there other mechanisms that we should consider?

- Do you have any comments on the templates we shared?
- Do we need to collect any additional data?
- Are there areas we could make changes?

- We are no longer proposing to have a WG in March
- We are considering having a teleconference in April, where we may discuss:
 - Clarifications on consultation responses
 - Feedback and clarifications on CBA template and guidance
 - Feedback on BPDTs
 - Any other topics?

WGs Beyond May

- Interested to hear views on whether WGs needed after the May Sector Specific Methodology Decision document
- We are proposing to keep repex cost assessment as part of the CAWG group, rather than have a dedicated group

AOB?

Our core purpose is to ensure that all consumers can get good value and service from the energy market. In support of this we favour market solutions where practical, incentive regulation for monopolies and an approach that seeks to enable innovation and beneficial change whilst protecting consumers.

We will ensure that Ofgem will operate as an efficient organisation, driven by skilled and empowered staff, that will act quickly, predictably and effectively in the consumer interest, based on independent and transparent insight into consumers' experiences and the operation of energy systems and markets.
