

Dear Sir/Madam,

I am writing to you to strongly object to the proposals of Viking Energy to devastate our tiny Isle of Shetland, with the "largest onshore windfarm in Scotland"!!

This form of "clean" energy is now obsolete in forward thinking countries! and they are focusing on much cleaner, environmentally friendly alternatives!

Shetland will effectively be turned into a generating station and will suffer economically with a downturn in tourism and people leaving the island! myself included! and I have lived here all my life!

There has never been any direct consultation with the "ordinary" people in Shetland because this project is only being done for the profit of a few "fat cats" and won't benefit Shetland as a whole in any shape or form!!

Please please reconsider !!

Yours Sincerely
