

Response template – Incentive on Connections Engagement

- 1.1. We would like to hear the views of interested parties in relation to any of the issues set out in our open consultation letter.
- 1.2. The questions we have asked are directly linked to the minimum criteria set out in the ICE guidance document. You can find this on our website [here](#).
- 1.3. If you have any questions on this document, please contact connections@Ofgem.gov.uk.
- 1.4. **Responses should be sent by e-mail by 28 August 2020 to the address above.**
- 1.5. Unless marked confidential, all responses will be published by placing them in Ofgem's library and on our website www.ofgem.gov.uk. Respondents may request that their response is kept confidential. Ofgem shall respect this request, subject to any obligations to disclose information, for example, under the Freedom of Information Act 2000 or the Environmental Information Regulations 2004.
- 1.6. Respondents who wish to have their responses kept confidential should clearly mark the document/s to that effect and include clear reasons for confidentiality. We ask you to consider this carefully as sharing the comments with the relevant DNO may help improve their performance and ensure a transparent and effective ICE process. Respondents are asked to put any confidential material in the appendices to their responses.
- 1.7. We will consider the responses to this consultation and these will be used alongside other evidence for our assessment of the ICE plans.
- 1.8. Each of the questions asked by this consultation is set out in the template below.
- 1.9. **Please ensure that you indicate the DNO or specific licence area** to which your experiences relate. Each DNO is group and individual DNO is listed on our [here](#). Please note that Northern Ireland is not subject to this consultation.

1.10. When considering your responses to these questions, please consider your experiences, the actions that the DNO has undertaken or committed to undertake, and the actions that you consider it could reasonably undertake.

1.11. **Please make sure you highlight which year a specific event happened in. The regulatory year runs from 1 April to 31 March.**

Annex: response template

About you and your work				
What is the name of your company?	Roadnight Taylor Ltd			
Is your response confidential? Please explain which parts and why. For a fair process, we prefer the DNOs to be able to respond to any comments made, particularly if they are negative. Please consider carefully before marking any part of your response confidential.	No			
Which DNO's ICE submission is your response related to? If you wish to provide a response to the ICE submission of more than one DNO group, please use a separate template for each group.	SSEN			
What type of connection do you generally require? For each type of connection, how many applications have you made in the past year, and what is the total MVA (Mega Volt Ampere)?	Type of connection		Total number of connections	Total MVA of connections
	Metered Demand Connections	Low Voltage (LV) Work		
		High Voltage (HV) Work		
		HV and Extra High Voltage (EHV) Work		
		EHV work and above		
	Metered Distributed Generation (DG)	LV work	2	<1MVA
		HV and EHV work	13	Circa 250MVA
	Unmetered Connections	Local Authority (LA) work		
Private finance				

		initiatives (PFI) Work		
		Other work		

Section 1: Looking Back report 2019/20

We want your views on how well the DNOs have engaged with connections stakeholders over the last regulatory year

1. How many of the DNO's stakeholder engagement events have you been invited to this year? (This can include engagement outside official events.) Please tick a box.	none	1	2	3	4	5	6	>6
								✓
2. How many DNO Stakeholder events have you been to? This can also include meetings outside of official engagement events. Please tick a box.	none	1	2	3	4	5	6	>6
								✓
3. Tell us about how the DNO engaged with you: a) What did the DNO do? b) How did the DNO do it? c) Did the DNO have a robust engagement strategy?	RT typically attends DNO expert panels, events on specialist topics and then informal engagement on specific issues. SSEN does these well and has a clear, robust and effective strategy.							
The DNO's work plan								
4. <i>Objectives:</i> Have you seen the DNOs work plans and the objectives they outline? a) Does it take into consideration your needs? If so, how? b) If it doesn't please explain why.	Yes. It addresses the key areas of policy development that impact LV/HV/EHV generation connections and flexibility.							
5. <i>Actions:</i> Do you think the DNO has delivered its work plan? a) How has the DNO done this? b) If you do not think the DNO has delivered its work plan, please explain why.	With regards the areas in which we are most active it has delivered its plan.							

<p>6. <i>Outputs:</i> Were the outputs (KPIs, targets etc) in the DNO's work plan appropriate? Did the DNO meet these outputs? Please explain why.</p>	<p>Yes</p> <p>Yes</p>			
<p>Your feedback on the DNOs stakeholder engagement performance</p>				
<p>7. Do you think the DNO's strategy, activities and outputs have taken into account ongoing feedback from a broad and inclusive range of connections stakeholders?</p>	<p>Yes</p>			
<p>8. How satisfied are you with the DNO's overall engagement performance? Please tick one box.</p>	<p>very unsatisfied</p>	<p>not satisfied</p>	<p>satisfied</p>	<p>very satisfied</p>
				<p>✓</p>
<p>9. General feedback – please provide any further feedback on the DNO's 2019/20 engagement performance not covered in your responses above.</p>	<p>The SSEN team, including senior management, has been proactive in inviting feedback, and has then engaged wholeheartedly, transparently and to good effect in order to acknowledge and overcome issues we have identified. Further, they have been keen to identify the root cause of any issues we flag, in order to address problems permanently, for all customers, as opposed to merely offering superficial fixes – and they react with a appropriate sense of urgency. They have also taken our own suggestions for improvements on board, indeed they have been keen to hear them. They are eager to improve customers' connections experiences and to implement solutions that will facilitate a greater number of connections of low carbon technologies. There are individual engineers who will go to great lengths in this regard – such as both Yuling Gao and Tony Squires – and the active solutions team, led very positively by Alex Howison, is keen to engage with us in order to find innovative connection solutions that may be pushing the envelope well beyond business as usual. The availability of SSEN's network data is better than most, the new GIS system has made carrying out network studies quicker and more effective, and the heat map provides the most comprehensive overview of physical constraints of all the DNOs – which means we are less likely to have to make contact with one of their design engineers, or make a nugatory connection application.</p>			

Section 2: Looking Forward plans 2020/21

We want your views on what the DNO aims to achieve in the coming year	
10. Are you satisfied that the DNO has a comprehensive and robust strategy for engaging with connection stakeholders and facilitating joint discussions where appropriate?	Yes
11. Do you agree that the DNO has a comprehensive work plan of activities (with associated delivery dates) that will meet the requirements of its connection stakeholders? If not, has the DNO provided reasonable and well-justified reasons? What other activities should the DNO do?	Yes
12. Do you consider that the DNO has set relevant outputs that it will deliver during the regulatory year (eg key performance indicators, targets, etc.)?	Yes
13. Would you agree that the DNO's proposed strategy, activities and outputs have been informed and endorsed by a broad and inclusive range of connection stakeholders? If not, has the DNO provided robust evidence that it has pursued this engagement?	Yes
