

Response – Incentive on Connections Engagement – SSEN

About you and your work				
What is the name of your company?	Scottish Renewables			
Is your response confidential? Please explain which parts and why. For a fair process, we prefer the DNOs to be able to respond to any comments made, particularly if they are negative. Please consider carefully before marking any part of your response confidential.	No.			
Which DNO's ICE submission is your response related to? If you wish to provide a response to the ICE submission of more than one DNO group, please use a separate template for each group.	SSEN (We have submitted a separate response for SPEN).			
What type of connection do you generally require?	Type of connection		Total number of connections	Total MVA of connections
For each type of connection, how	Metered Demand Connections	Low Voltage (LV) Work		

many applications have you made in the past year, and what is the total MVA (Mega Volt Ampere)?		High Voltage (HV) Work		
		HV and Extra High Voltage (EHV) Work		
		EHV work and above		
	Metered Distributed Generation (DG)	LV work		
		HV and EHV work		
	Unmetered Connections	Local Authority (LA) work		
		Private finance initiatives (PFI) Work		
		Other work		

Section 1: Looking Back report 2019/20

We want your views on how well the DNOs have engaged with connections stakeholders over the last regulatory year

1. How many of the DNO's stakeholder engagement events have you been invited to this year? (This can include engagement outside official events.) Please tick a box.	none	1	2	3	4	5	6	>6
								X
2. How many DNO Stakeholder events have you been to? This can also include meetings outside of official engagement events. Please tick a box.	none	1	2	3	4	5	6	>6
								X

<p>3. Tell us about how the DNO engaged with you:</p> <p>a) What did the DNO do?</p> <p>b) How did the DNO do it?</p> <p>c) Did the DNO have a robust engagement strategy?</p>	<p>a) SSEN has clearly worked to form a strong relationship with Scottish Renewables, allowing us and our industry membership to engage readily. SSEN has a strong events programme, which is key to enabling us and our members to engage, learn and discuss key issues. We have been pleased to see SSEN engage directly with us as well as taking up speaking slots at the Scottish Renewables Solar and Hydro Conferences.</p> <p>b) Direct B2B relationships have been part of this, with a number of meetings between SSEN and Scottish Renewables staff building a strong working relationship. Additionally, we and our members were in receipt of emails and newsletters. Publications and consultation responses were well advertised, with good opportunity for industry feed-in.</p> <p>c) Yes, we believe SSEN to have operated a robust engagement strategy.</p>
<p>The DNO's work plan</p>	
<p>4. <i>Objectives:</i> Have you seen the DNOs work plans and the objectives they outline?</p> <p>a) Does it take into consideration your needs? If so, how?</p> <p>b) If it doesn't please explain why.</p>	<p>Yes.</p>
<p>5. <i>Actions:</i> Do you think the DNO has delivered its work plan?</p> <p>a) How has the DNO done this?</p> <p>b) If you do not think the DNO has delivered its work plan, please explain why.</p>	<p>Yes. It is clear that along with a robust events programme SSEN has delivered on its commitments, taking into account stakeholder feedback in doing so.</p>
<p>6. <i>Outputs:</i> Were the outputs (KPIs, targets etc) in the DNO's work plan appropriate? Did the DNO meet these outputs?</p>	<p>Yes. We believe that appropriate outputs were identified (and received considerable stakeholder engagement as they were drawn up). In our view these outputs have been met.</p>

Please explain why.				
Your feedback on the DNOs stakeholder engagement performance				
7. Do you think the DNO's strategy, activities and outputs have taken into account ongoing feedback from a broad and inclusive range of connections stakeholders?	Yes.			
8. How satisfied are you with the DNO's overall engagement performance? Please tick one box.	very unsatisfied	not satisfied	satisfied	very satisfied
				X
9. General feedback – please provide any further feedback on the DNO's 2019/20 engagement performance not covered in your responses above.	<p>Scottish Renewables continues to question whether ICE is the most appropriate mechanism for driving good performance from DNOs around connections.</p> <p>It is evident that a considerable amount of resource is put into a very robust engagement programme, and while this is welcome, it needs to be noted that industry (particularly small businesses) have limited capacity to engage.</p>			

Section 2: Looking Forward plans 2020/21	
We want your views on what the DNO aims to achieve in the coming year	
10. Are you satisfied that the DNO has a comprehensive and robust strategy for engaging with connection stakeholders and facilitating joint discussions where appropriate?	Yes.
11. Do you agree that the DNO has a comprehensive work plan of activities (with associated delivery dates) that will meet the requirements of its connection stakeholders? If not, has the DNO provided reasonable and well-justified reasons? What other activities should the DNO do?	<p>Yes, the work plans are robust, and easily digestible.</p> <p>Scottish Renewables believes that work plans across the DNOs must look to enable our transition to a net-zero network. We are therefore pleased to see several commitments from SSEN look to aid the connection of</p>

	<p>renewable generators and other low carbon technologies.</p> <p>We are particularly pleased to see commitments to improve the information available around DSO transition. Heat maps continue to be a useful tool so the commitment to increase the regularity of updates to these is welcome.</p> <p>SSEN have been proactive in considering the impact of EVs on their network so we are pleased to see that engaging with stakeholders on the EV transition continues to be considered in their commitments.</p>
12. Do you consider that the DNO has set relevant outputs that it will deliver during the regulatory year (eg key performance indicators, targets, etc.)?	Yes, we believe these to be robust.
13. Would you agree that the DNO's proposed strategy, activities and outputs have been informed and endorsed by a broad and inclusive range of connection stakeholders? If not, has the DNO provided robust evidence that it has pursued this engagement?	Yes, in our view it is evidenced that strategy, activities and outputs have been informed and endorsed by a broad and inclusive range of connection stakeholders.
