Good Afternoon,

Consultation on increasing DCC's revenue at risk against the Operational Performance Regime (OPR)

We agree with the minded-to position to increase the DCC's revenue at risk against the OPR. We believe that this will help strengthen the incentive for the DCC to ensure that they are performing well in all areas. We have been actively involved in the SEC Operational Metrics project and feel that option one will help support the aims of this project.

Kind Regards

Gemma Slaney
