| Question date                          | 03 September 2015  | Answer date     | 07 September 2015 |
| Submission section question relates to | Section 4.2 (p20)  |                 |                   |
| Topic                                  | Benefits   |                 |                   |
| Question                               | Extra revenue generated by the facility would be used to refund the NIC costs associated with the development of it. Would the refund be to the customer-funded part rather than the NGET funded part?   |                 |                   |
| Notes on question                      |  |                 |                   |
| Answer                                 | <p>During the duration of the NIC period, all revenue generated by the facility would be used to refund the customer-funded part and will be returned to the customers through Transmission Network Use of System Charges.</p> <p>Section 7, page 36 paragraph 2 describes this arrangement in further detail.</p> |                 |                   |
