Notes on question			
Answer	<p>The contingency plan provided within the submitted FSP provides consideration of how WPD will manage all risks within the project, to demonstrate the rigor of the process applied. WPD have highlighted the first four risks presented within the Risk Register (Appendix 4) and expanded to identify the mitigation steps and thereafter the approaches available to provide contingency within that given scenario. During the delivery of the project, all risks regardless of their rating, will be managed and mitigated accordingly.</p>
