**Gas Act 1986
Section 23(1)(a)**

Modification of the Standard Special Conditions and Special Conditions of the gas transporter licence held by National Grid Gas plc (NGG) in respect of the National Transmission System (NTS)

1. National Grid Gas plc (NGG) is the holder of a gas transporter licence in respect of the National Transmission System (NTS) ('the Licence') granted or treated as granted under section 7 of the Gas Act 1986 ('the Act').
2. Under section 23(2) of the Act the Gas and Electricity Markets Authority ('the Authority')¹ gave notice on 3 May 2016 ('the Notice') that we propose to add the following new Standard Special Conditions B6 to B12 into the Licence and new Special Conditions 11G and 11H:
 - i. Standard Special Condition B6 (Application of Standard Special Conditions B7, B8 and B9);
 - ii. Standard Special Condition B7 (Provision of Meters);
 - iii. Standard Special Condition B8 (Provision of Terms);
 - iv. Standard Special Condition B9 (Non-discrimination in the provision of Metering Activities);
 - v. Standard Special Condition B10 (Provision of services for specific domestic customer groups);
 - vi. Standard Special Condition B11 (Arrangements for access to premises);
 - vii. Standard Special Condition B12 (Reporting on performance);
 - viii. Special Condition 11G (Application of Special Condition 11H); and
 - ix. Special Condition 11H (Restriction of prices in respect of Tariff Capped Metering Activities)

We stated that any representations to the modification proposal must be made on or before 31 May 2016.

3. A copy of the Notice was sent to the Secretary of State in accordance with section 23(4)(b) of the Act, and we have not received a direction that the change should not be made.
4. We received two responses to the Notice, which we carefully considered. We have placed all non-confidential responses on our website. Our response to these comments is set out in our accompanying letter².
5. It is necessary to make a number of minor alterations to the modifications set out in the Notice. These alterations are highlighted in yellow in the attached Schedule 1. The reasons for any differences between the modifications set out in the Notice and the modifications reflected in Schedule 1 are to address a minor issue raised in consultation responses. The additional minor alterations make explicit that the conditions will only take effect if we have issued a relevant direction which was implicit in the statutory consultation.
6. We are making these licence changes because NGG is seeking to transfer its gas distribution assets and distribution network (DN) licence to a new legal entity ahead of selling a majority stake in its gas distribution business.

¹ The terms "the Authority", "we" and "us" are used interchangeably in this document.

7. The effect of the modifications will be to provide us with the ability to introduce a Backstop Meter Provider of Last Resort (BMPOLR) obligation, which currently resides in NGG (DN)'s gas transporter licence, into NGG (NTS)'s gas transporter licence. The BMPOLR obligation itself would not be in effect in NGG (NTS)'s gas transporter licence unless we issue a direction to bring it into effect.
8. Where an application for permission to appeal our decision is made to the Competition and Markets Authority (CMA) under section 23B of the Act, Rule 5.7 of the CMA's Energy Licence Modification Appeals Rules³ requires that the appellant must send to any relevant licence holders who are not parties to the appeal a non-confidential notice setting out the matters required in Rule 5.2. The relevant licence holder is National Grid Gas plc (NTS). Section 23(10) of the Act sets out the meaning of 'relevant licence holder'.

Under the powers set out in section 23(1)(a) of the Act, we hereby modify the Standard Special Conditions and Special Conditions of the gas transporter licence in respect of the National Transmission System of National Grid Gas plc in the manner specified in attached Schedule 1. This decision will take effect from 1 September 2016.

This document is notice of the reasons for the decision to modify the gas transporter licence in respect of the National Transmission System held by National Grid Gas plc as required by section 38A of the Act.
