Higher, Middle and Lower tariff rates in brief:

Higher tariff rate will be applied if an EPC of level D or above is achieved before commissioning

Middle tariff rate will be applied if an EPC of level D or above has been achieved but the Generator owns 25 or more installations

Lower tariff rate will be applied if an EPC of level D or above is not achieved before commissioning

For more information on the requirements of PV installation please refer to section 5 of our guidance:

Note: FIT Payment rates for solar photovoltaic installations have been determined by the Gas and Electricity Markets Authority (Ofgem) under Article 13 of the Feed-in Tariffs Order 2012, in accordance with Annex 3 to Schedule A to Standard Licence Condition 33.

All tariff rates are specified as pence per kilowatt hour at 2016/17 values.

\*These tariffs are currently under review as part of the government's consultation on support for anaerobic digestion. Please contact the Department for Business, Energy and Industrial Strategy (BEIS) for further information. You can view the consultation documents here:
