Feed-in Tariff Deployment Caps Quarterly report (Tariff Period 4)

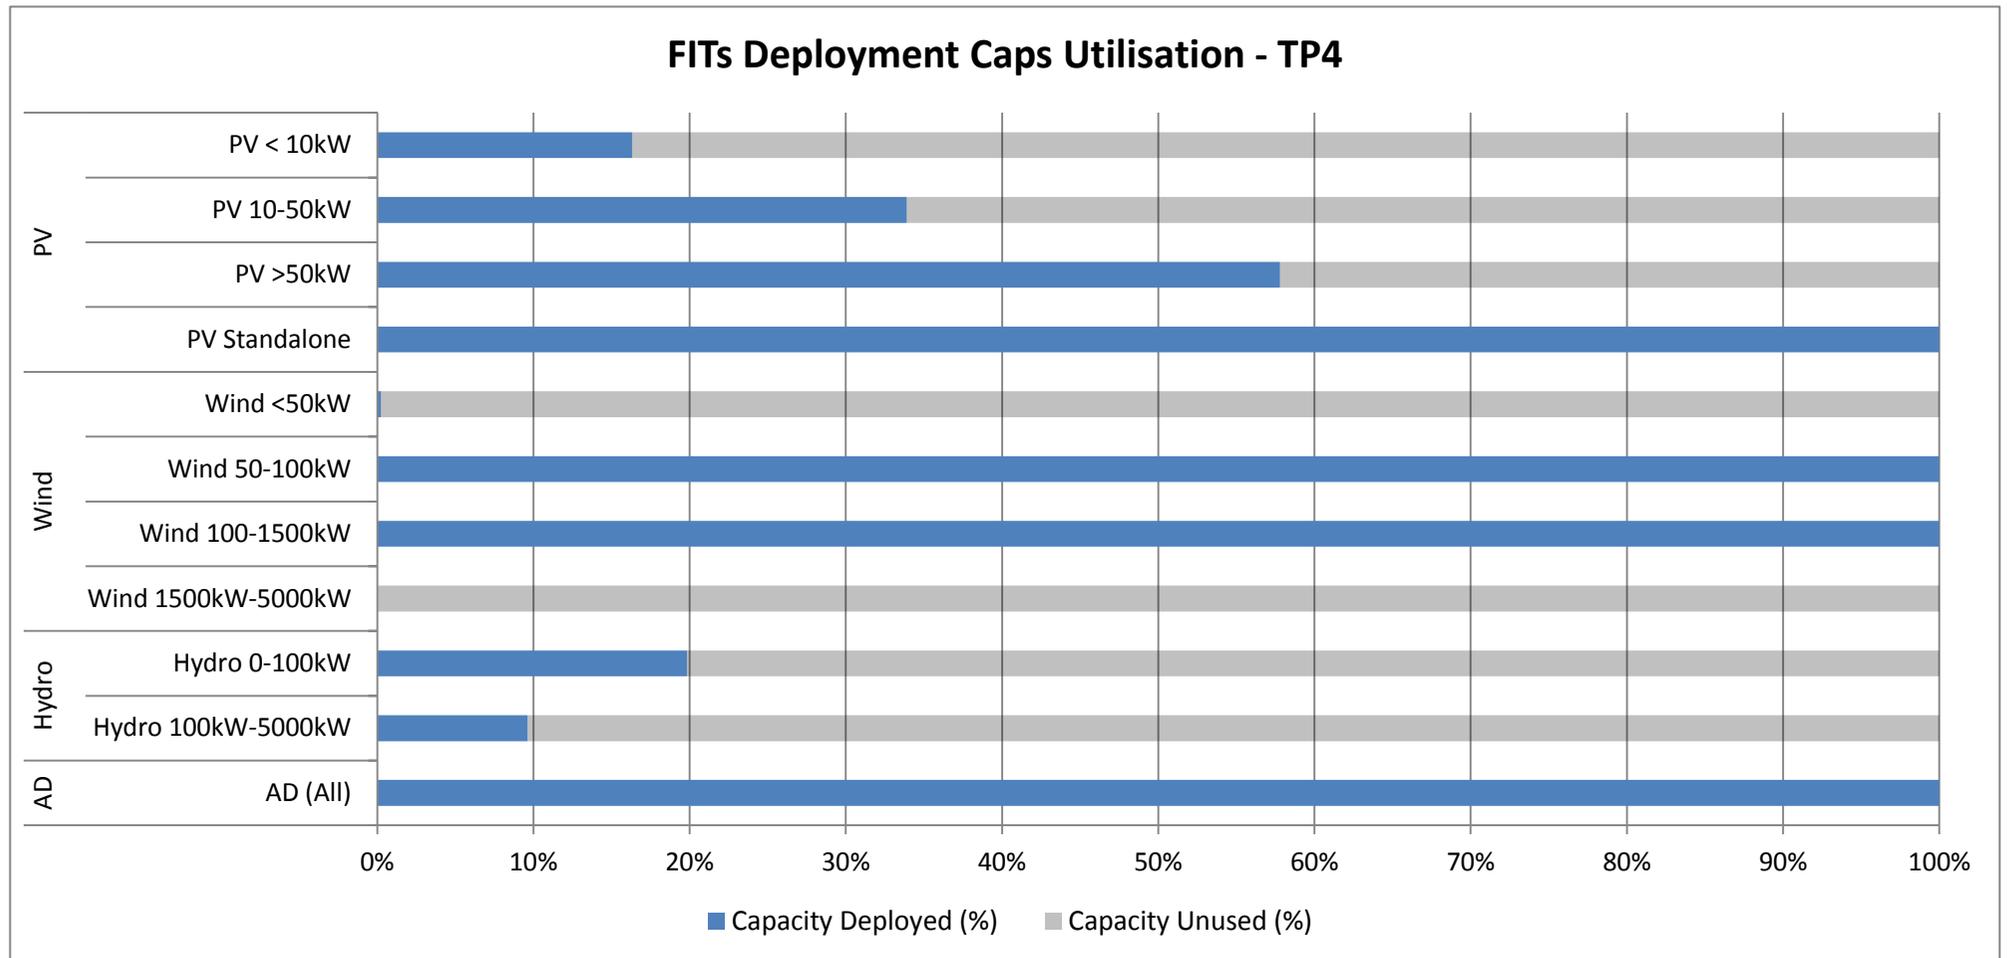

Table 1 shows the capacity deployed¹ per technology and capacity band in the tariff period 01 October – 31 December 2016, which has now closed.

Table 1 – Deployment for Tariff Period 4 (01 October – 31 December 2016)

¹ For the purposes of this table, "capacity deployed" includes the capacity of MCS installations and ROOFIT applications for preliminary and full accreditation that have been counted towards the relevant cap in the tariff period.

Table 2: Deployment caps for current and future tariff periods

This table shows the capacity limits for each deployment cap as provided for in the Feed-in Tariffs Order 2012 (as amended). In caps that were not reached during that period, the capacity limits in the current tariff period have been adjusted to account for unused capacity in the previous tariff period (in **bold** below). The capacity limits in future tariff periods are subject to change.

Table 3: Indicative capacity available in FIT Deployment Caps

This table provides an indication of the available capacity under each cap based on the deployment figures currently available. This information is an indicative estimate only; each quarter this data will be refreshed based on the most up to date figures.
