

## Renewables Obligation Certificate (ROC) Issue Schedule 2017/2018

Version number: 1

<b>Issue Date</b>	March 2017
<b>Column A</b>	Sets out the date by which Ofgem must receive monthly import, export and, where appropriate, FMS data from the operator of the generating station for the purposes of issuing Renewable Obligation Certificates (ROCs)*.
<b>Column B</b>	Sets out the date by which Ofgem intends to issue ROCs.

Note: If an operator has problems submitting this data to Ofgem, within the timeframes below, we should be notified **before** the relevant date in Column A. If data for ROCs is submitted to Ofgem after the date shown in Column A it will be suspended and Ofgem will look for generators to provide reasons as to why the data was submitted late. In these cases it is unlikely that the ROCs will be issued by the date shown in column B.

\* In the majority of cases, the data should be submitted via the Renewables and CHP Register. In the event of a problem with the Register, information should be emailed to our dedicated email account; [renewable@ofgem.gov.uk](mailto:renewable@ofgem.gov.uk). If you need to speak to a member of the Renewables team directly please call our dedicated helpline on **020 7901 7310** and choose option 2.

\*\* Operators of micro-generating stations i.e. with a **declared net capacity of 50 kW or less** (or their agents) that have notified Ofgem that they want ROCs to be issued on an annual basis, must provide data for gross output and input electricity for the period, 01 April 2017 - 31 March 2018 by **31 May 2018** at the latest. Our generator and agent guidance documents, available on our website, provide further information on this. For individual micro-generating stations in NI we have a [step by step guide to submitting data](#) which will help you with this process.
