Latest news and updates

[ECO2 progress reports](#)

Our monthly [ECO2 progress reports](#) show delivery against suppliers' ECO2 targets.

The latest monthly update shows that 94,488 loft insulation measures have been approved under ECO2, from April 2015 to June 2017.

[» View the charts](#)

[ECO2t monitoring guidance](#)

We recently published the last ECO2t associated document; [ECO2t supplementary guidance for monitoring](#). This includes information on our expectations with respect to monitoring in the ECO2t period.

Our [ECO2t monitoring page](#) also includes the ECO2t technical monitoring and score monitoring questions and ECO2t Explanatory notes for monitoring.

[Read our guidance](#)

[BEIS' ECO monthly statistical release](#)

The Department for Business, Energy and Industrial Strategy (BEIS) has published their latest monthly [ECO statistics](#).

Their statistics show that since the start of the scheme, 476,502 boiler measures have been delivered.

Installers and Industry FAQs

If you have a question about ECO, read our [frequently asked questions](#) for installers and industry.

Have a Query?

Please do [get in touch](#) and we'll be happy to help.

About ECO

ECO is a government scheme to reduce carbon dioxide emissions from Britain's domestic housing and support people living in fuel poverty by funding energy efficiency improvements.

It places legal obligations on larger energy suppliers to deliver energy efficiency measures to domestic premises in Great Britain. The scheme began in 2013, and the overall obligation period for the second phase of ECO runs from 1 April 2015 to 30 September 2018.
