Ref: CONSULTATION RESPONSE ON OFGEM E-SERVE GUIDANCE - RENEWABLES OBLIGATION: CLOSURE OF THE SCHEME TO ONSHORE WIND IN ENGLAND, SCOTLAND, WALES AND NORTHERN IRELAND (INVESTMENT FREEZING DECLARATIONS)

Following on from the stakeholder workshop which was held in Belfast on the 30th of May 2017 in which this consultation was discussed, everun ltd welcome the opportunity to respond with our views.

We have set out below our responses to the following specific questions that you have raised:

Do you have any concerns relating to the proposed declarations as set out in this document? If so please provide specific comments.

While we have no concerns relating to the content of the declarations as set out in this document, please see our response to the other question below which will offer more clarification on our response.

Are there any aspects of the declarations that could be made clearer or improved? If so, please provide specific comments.

As outlined in the consultation response and discussed at the stakeholder workshop, the draft declaration templates merge the various grace period declarations into one template. We propose that the template declarations be split according to each grace period in order to improve clarification.

Thank you for the opportunity to submit feedback on this consultation.

Yours faithfully,

Alicia Treanor
Project Manager
