Renewables Obligation: Guidance for Suppliers

EDF Energy is one of the UK's largest energy companies with activities throughout the energy chain. Our interests include nuclear, coal and gas-fired electricity generation, renewables, storage, and energy supply to end users. We have over five million electricity and gas customer accounts in the UK, including residential and business users.

EDF Energy has no comments to make regarding the draft guidance. The guidance seems clear and reflects a sensible approach to the changes required. However, we anticipate that the guidance will be updated to reflect any changes to the date of implementation of the Electricity Intensive Industries (EIs) exemption scheme.

Should you wish to discuss any of the issues raised in our response or have any queries, please contact Martin Pearce on 0208 9352726, or myself.

I confirm that this letter and its attachment may be published on Ofgem's website.

Yours sincerely,

A handwritten signature in blue ink that reads 'Paul Delamare'.

Paul Delamare

Renewables Obligation: Guidance for Suppliers

EDF Energy's response to your questions

- Q1. Are there any aspects of updated sections of this guidance that could be made clearer or improved? If so, please provide specific comments including section references.**
- Q2. Are there any omissions in this guidance? If so, please provide comments.**
- Q3. Do you feel that the approach we are taking in administering the exemption is sensible? If not, please provide comments.**
