## **Ref: Switching Programme: Regulation and Governance - way forward and statutory consultation on licence modifications**

EirGrid Interconnector DAC welcomes the opportunity to respond to the “Switching Programme: Regulation and Governance - way forward and statutory consultation on licence modifications” and acknowledge that as part of this Ofgem are proposing a modification to the electricity interconnector licence establishing a duty on the licensee to cooperate with relevant programmes that are sponsored by the Authority.

We recognise that the proposed duty is not intended to be a one size fits all approach and would only apply in circumstances where the Authority has consulted upon, and given formal notice of, matters being taken forward as part of a SCR and that it will be made clear which licensees are affected and expected to engage.

Best regards,

Ruth Young  
Commercial Lead  
EirGrid Interconnectors DAC
