

Electricity Network Innovation Competition Full Submission

Supplementary Answer Form

Project: Charge: Refuelling Tomorrow's Electrified Transport

Tick if this answer has been provided verbally: ☐

Project code	SPMV1	Question Number	39
Question date	30/08/18	Answer date	03/09/18
Submission section question relates to		N/A	
Topic	Partners/external funding		
Question	How firm is the commitment to the project and utilisation of the outputs if the project is succesful from Local Government partners/supporters/funders?		
Notes on question			
Answer	<p>As part of our existing stakeholder engagement activities and throughout the development of this project we have fostered a growing appetite for a coordinated approach to facilitating the electrification of transport. Our stakeholders are telling us they want to be able to connect to our network in the most efficient and timely manner and the level of support received from a wide range of key stakeholders is testament that charge aligns with their expectations. The following quotes are a small example of the wide scale support received:</p> <p><i>"If the Charge project is successful, we would be delighted to work with SP Energy Networks and its partners in delivering aspects of the project"</i></p> <p><i>Colleen Martin, Assistant Director Supporting Communities, Liverpool City Council</i></p> <p><i>By adopting this partnership approach and engaging in early consultation.. real tangible benefits are anticipated.."</i></p> <p><i>Sadie Smith, Energy Conservation Manger, Flintshire County Council</i></p> <p><i>"Utilities Connection Management (UCML) fully supports the SP Energy Networks innovative submission associated with Electric Vehicle Charging"</i> Arwel Lloyd, Managing Director UCML</p> <p><i>"Being prepared for the move to electrified transport will enable Conwy County Borough Council to take advantage of the economic benefits from the tourist industry whilst also working to achieve our wider 'lower emissions' target and working with SP Energy Networks will help to align</i></p>		

	<p><i>strategic investment requirements for EV charging infrastructure”</i> Steven Teale, Facilities Manager, Conwy County Borough Council</p> <p>A list of the stakeholders engaged is included in the appendix.</p>
