

[Received by e-mail, dated 5 March 2019]

I write to confirm the support of Boat of Garten and Vicinity Community Council for this project.

Some months ago we had a presentation from SSEN about these proposals and expressed our support in writing for them at the time. There is no doubt that there will be enormous benefits to the Cairngorms National Park area for the cabling to go underground and for the current towers to be removed from Docharn through to Boat of Garten and Nethybridge.

Yours sincerely
Alison Fielding
Chair
Boat of Garten and Vicinity Community Council
